Department of Computer Science And Engineering
OCTOBER 2024

MLSA INTERNSHIP

The background of the slide is a light cream color with a subtle paper texture. It is decorated with dark blue and light blue floral and leaf motifs in the corners. The top-left corner features a branch with small leaves and clusters of light blue dots. The top-right corner has a branch with larger, oval-shaped leaves. The bottom-left corner shows a branch with oval leaves. The bottom-right corner is decorated with a branch, light blue dots, and small star-like shapes.

INTRODUCTION:-

This project involves the development of a web application that combines a to-do list and a calculator. The application aims to enhance productivity by allowing users to manage tasks efficiently while providing a built-in calculator for quick calculations.

TECHNOLOGIES USED

- HTML - Structure of the web application
- CSS - Styling Layout
- Java-Script- Functionality for to-do list and calculator.

BODY:-

FEATURES:

TO-DO LIST-

- Add, edit, and delete tasks.
- Mark tasks as complete or incomplete.
- Filter tasks by status (all, active, completed).
- Local storage for task persistence.

CALCULATOR-

- Basic arithmetic operations: addition, subtraction, multiplication, and division.
- Clear functionality to reset the calculator.
- Responsive design for usability on desktop devices.

The slide features a light beige textured background with a blue gradient on the right side. Dark blue leaf and branch illustrations are positioned in the corners. The title 'SUMMARY:-' is centered and underlined.

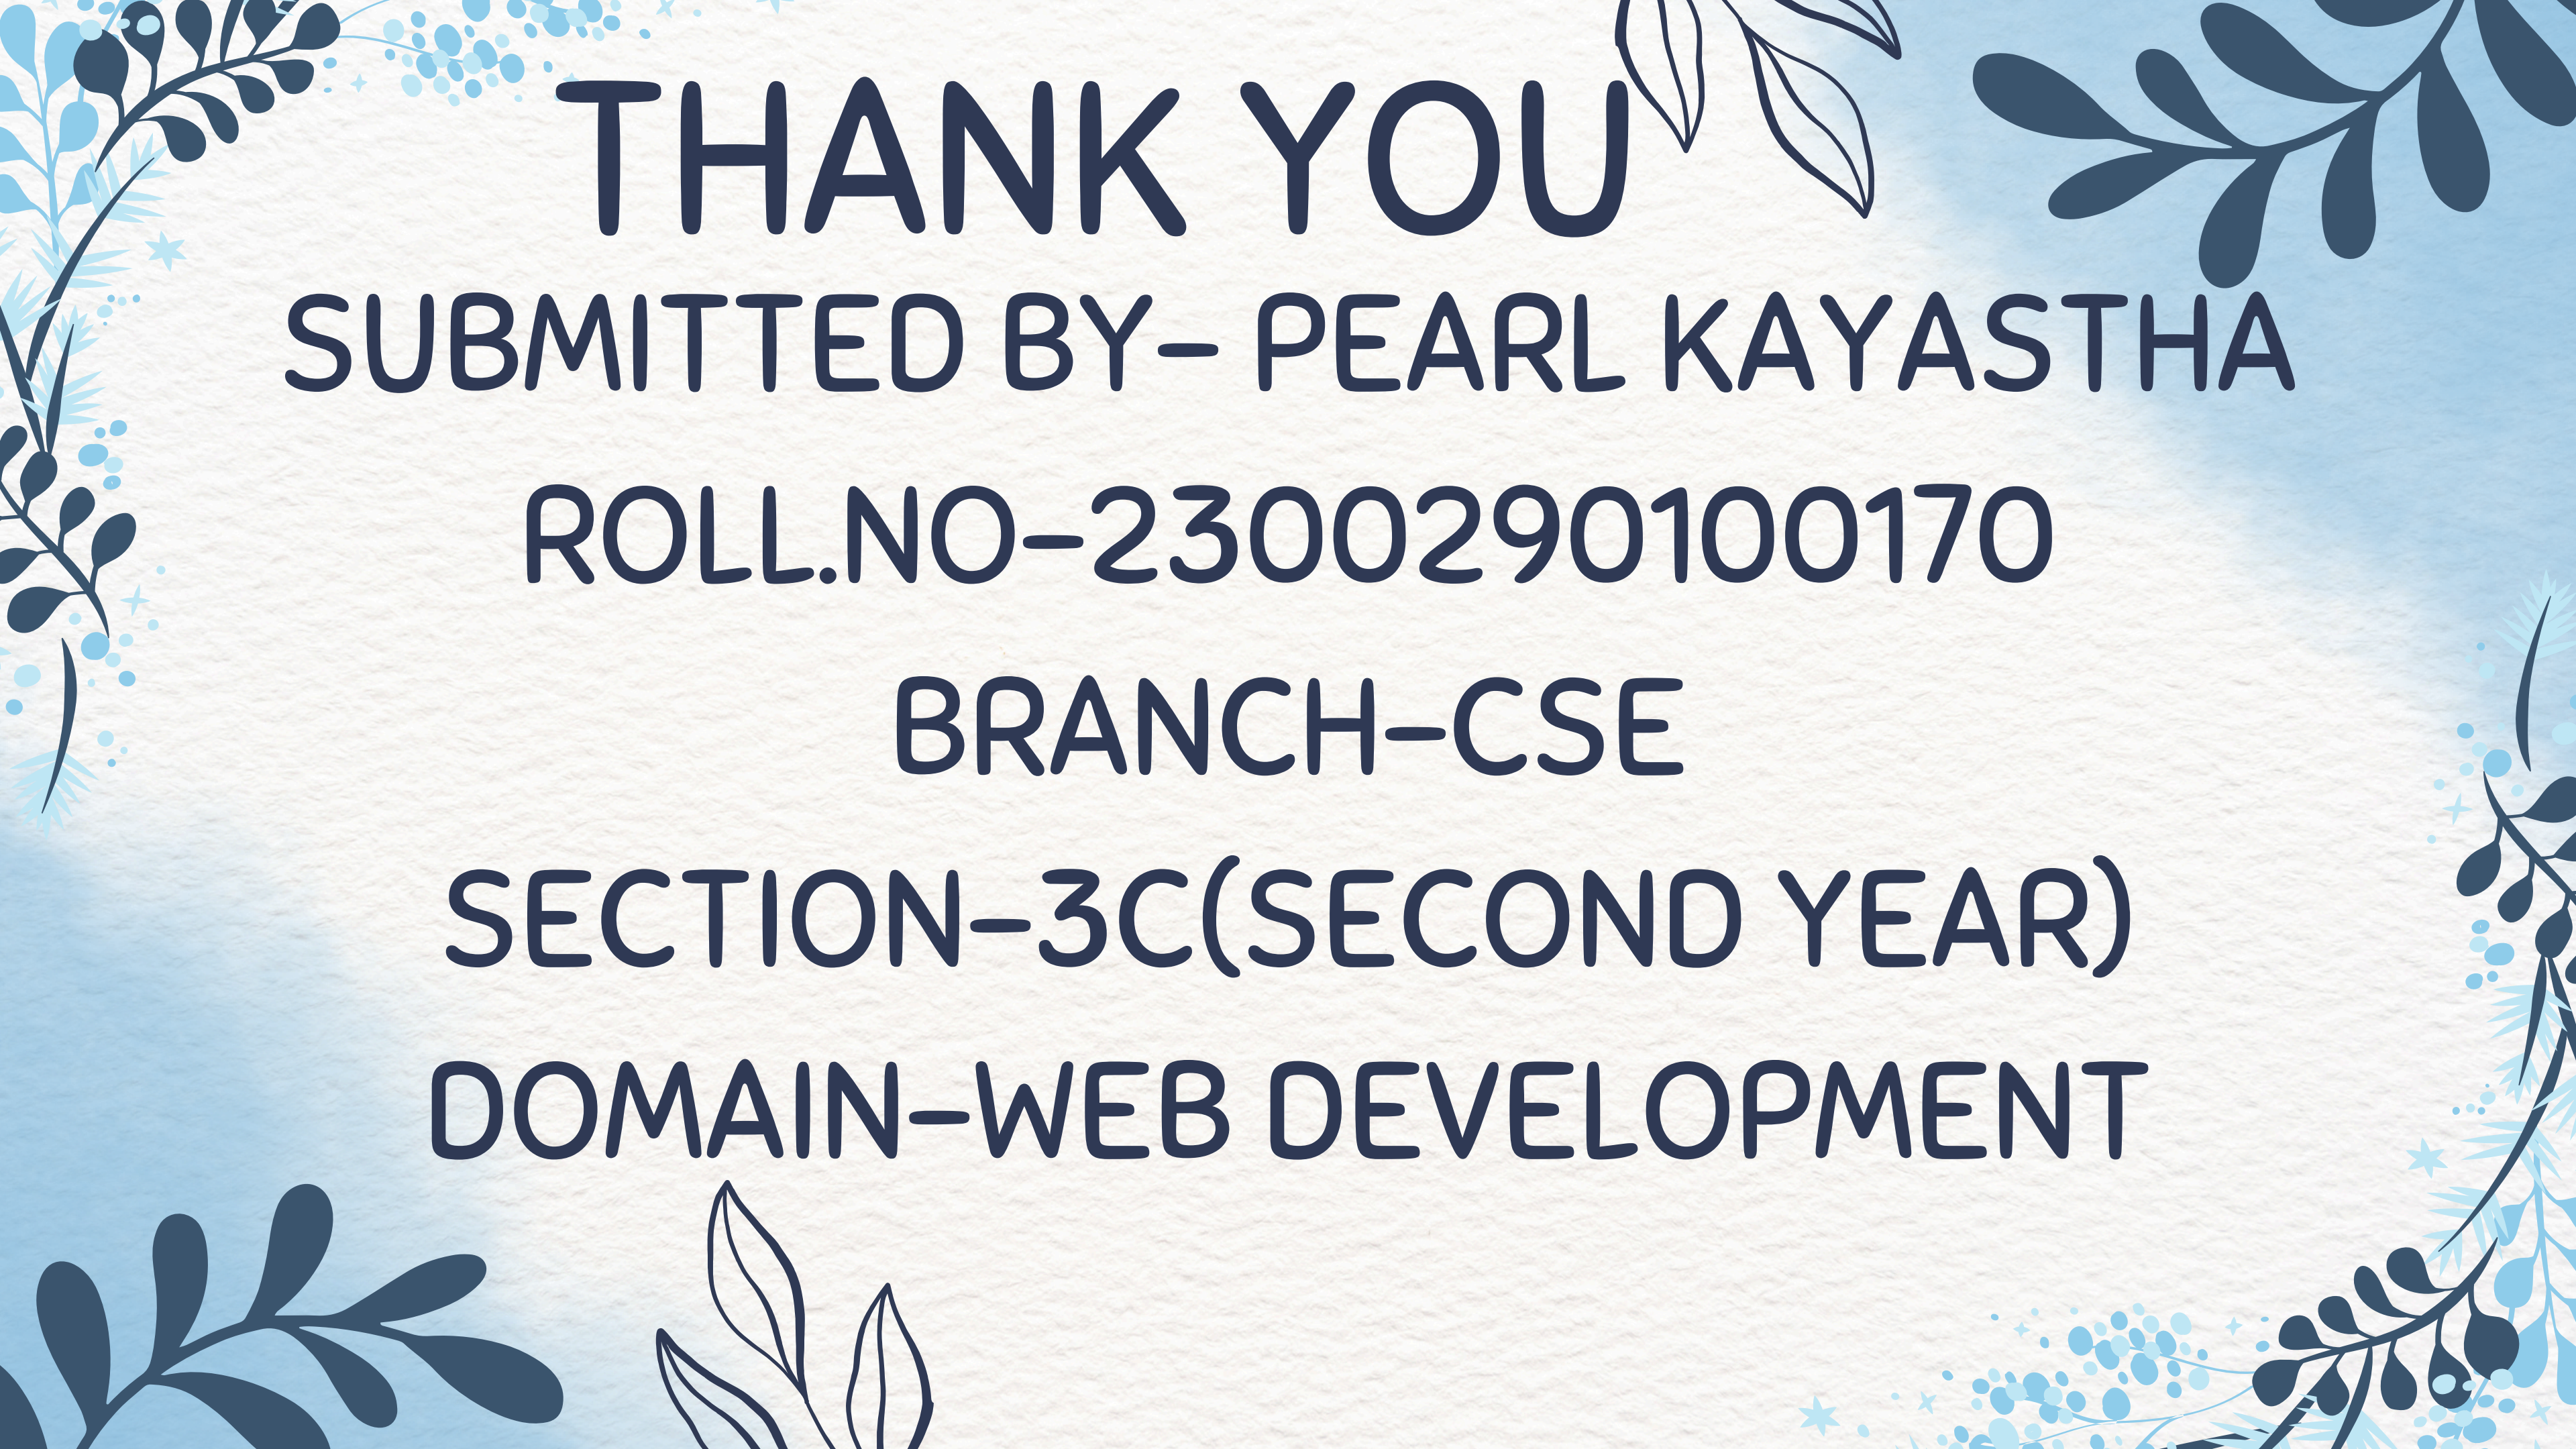

SUMMARY:-

This project report provides a comprehensive overview of the development process and highlights the core functionalities of the To-Do List and Calculator web application.

The slide features a light blue background with a subtle paper-like texture. It is decorated with stylized dark blue and light blue floral and leaf patterns in the corners. The word "CONCLUSION" is centered in a large, dark blue, rounded font.

CONCLUSION

The To-Do List and Calculator web application successfully integrates task management and basic arithmetic functions into a single user-friendly platform. The project demonstrates the ability to utilize web technologies effectively and provides a solid foundation for further enhancements.
